Dear Carer

Worcestershire County Council, Adult Social Care team have you on their records as caring for someone who lives in Worcestershire. We are contacting people by post and email to ensure we have contacted everyone. We are able to offer priority booking for COVID-19 vaccinations for carers who are eligible for carer's allowance, or are the sole or primary carer of an elderly, disabled or other person who is at increased risk of COVID-19 mortality and therefore clinically vulnerable.

Those clinically vulnerable to COVID-19 include:

- Children with severe neuro-disabilities
- Those who are designated Clinically Extremely vulnerable (CEV)
- Adults who have underlying health conditions
- Those who need care because of advanced age.

If you would like to progress with this opportunity please email covidvaccinations@worcestershire.gov.uk quoting reference CARER237 for more information.

Yours sincerely

Paula Furnival,

Strategic Director for People and Director of Adult Services,
Worcestershire County Council
