Objectives

Branch Plan 2022-23

Vision: Sustainable social care and health systems providing better care and support across the West Midlands, promoting independence and social justice, supporting thriving local communities and economies and ensuring an effective response to the challenges of COVID-19

improvement

my community as possible

- 1. Adult social care reform and effective implementation of national mandatory requirements (LPS, integration)
- 2. A sustainable care market and workforce with key focuses on home care, ICS relations and finance
- 3. Assurance and improvement preparing for CQC and continuing to provide opportunities for peer-led improvement
- 4. Social justice and supporting thriving local communities and economies
- 5. Innovation with continuing focuses on digital, data and research

Inputs **Activities** Impacts Outcomes* Outputs Regional oversight of key changes, Reform I can live the life I want and do the Co-ordinated, safe implementation • Help LAs prepare for reform with guidance, support and things that are important to me as 14 Directors of Adult Social services of reform, risks mitigated and their teams & legislative changes including LPS templates More effective interface between independently as possible health and social care ICS development via HWBB review Joint projects with ICS partners I have care and support that enables WM-ADASS Thematic Networks Sustainability me to live as I want, as a unique person • Service continuity & market • Key market / finance Market fragility, workforce with skills, strengths and personal goals resilience arrangements in place issues escalated and responded to WM-ADASS Improvement Director & & provider risk management • FCC exercises complete and I feel safe and I am supported to Effective market shaping/oversight Programme Manager • Cost of care and MSP support MSP templates and tools understand and manage any risks Improved commissioning Home care and workforce demand • New modelling tool and skills and delivery of home care I can keep in touch with people who and supply modelling WM-ADASS Associates pool & to support commissioners are important to me, including family, commissioned resources **Assurance and Improvement** • Work programmes & cross friends and people who share my Improvements across Priorities Thematic Network Delivery Network learning interests, identity and culture LA readiness for COC assurance Care and Health Improvement Assurance reviews & preparation Data Hub & Assurance toolkit of Improvement co-produced I have care and support that is co-Adviser (CHIA) • Co-production and Making it resources with lived experience experts ordinated and everyone works well Real support Experts by experience group together and with me Social Justice Better Care Manager Improved care quality & outcomes LD&A focus on research, New research, guality standards and I can get information and advice that is for individuals & families commissioning and quality support for LD&A providers accurate, up to date and provided in a Key partners – locally, regionally More inclusive regional Regional Programme Equality Impact Completed report and and nationally way I understand improvement programme recommendations for improvement Assessment Llive in a home which is accessible and Innovation Experts by experience designed so that I can be as Online repository of good practice Best practice scaled and replicated Identify, capture and share good • independent as possible New innovation projects, More capacity and resourcing practice – particularly care tech Programme budget support or funding underway to trial & embed innovation Develop innovation & new housing I have a co-produced personal plan 3rd party funding and/or support Strengthened research capacity • Research-based practice models, approaches and partnerships setting out how I can be as active in

 ASC research development *Aligned with Think Local Act Personal's 'Making it Real' Framework
